Fire and Carbon Monoxide Safety

- Install carbon monoxide (CO) alarms. Make sure there is one on every level of your home, especially around sleeping areas.
- Avoid using gas appliances inside your home. Use generators and grills outside of your home, away from windows and doors. Warm up vehicles outside of your garage.
- Create and practice a fire escape plan. Create a home fire escape plan with two ways out of every room. Choose a place to meet outside that is a safe distance away from your home.

DID YOU KNOW THAT:

It's Cervical Health Awareness Month. To learn more about cervical health and cancer prevention, there are two important tools for prevention: HPV [vaccination](#) and [regular screening](#). Since then, cervical cancer rates have dropped significantly among women who have received the vaccine. Make an appointment with your doctor and ask about the HPV vaccination or you can call your local Florida Dept. of Health in PBC 561-514-5300.

Home fires can start and spread quickly, so just a little bit of planning can make a big difference. Make sure to create a home fire escape plan and practice it regularly with your family. Having a Family Escape Plan is a smart way to include your children for the dangers and plan of action in the event of a home fire. Schools have Fire Drills. Do you practice a Home Fire Drill? We will discuss ways of keeping our children safe from silent and unseen threats. We will talk about the dangers and threats of Carbon Monoxide, and how installing alarms in your home, will provide confidence and safety for your family.
